correlation between democracy (measured by the Democracy Index - DI) and economic development (measured by the Human Development Index - HDI). Any correlation does not necessarily rule out the causal relationship of non-economic factors.

Correlation between Democracy and Economic Development

Download File PDF Comparative Democracy The

The system of economic development depends on the situation of the state in question. In small states such as Iran, surrounded by enemies, a strong state role is important. This might also be the case for South Korea or Belarus, the latter two also being strong developing economies on the first world model.
