Metric System Conversion Chart - 11+ Free Word, Excel, PDF ...

Years ago people came up with standard length measures, but they didn't all agree on one system. The Imperial System (which uses yards, feet, inches, etc to measure length) was developed over hundreds of years in the UK, then the French developed the Metric System (meters) in 1670, which soon spread through Europe, even to England itself in 1963.

Metric Conversion Calculator

A metric system is a system of measurement that succeeded the decimalised system based on the metre introduced in France in the 1790s. The historical development of these systems culminated in the definition of the International System of Units (SI), under the oversight of an international standards body.. The historical evolution of metric systems has resulted in the recognition of several ...
