## **Futures Options And Other Derivatives**

Derivatives include swaps, futures contracts, and forward contracts.

Options are one category of derivatives and give the holder the right, but not the obligation to buy or sell the underlying asset.

## **Derivatives vs. Options: What's the Difference?**

Hedging is the use of derivatives like futures and options to reduce or eliminate financial exposure. Before delving further into hedging, it's imperative to understand the following points: A long position/long exposure in a security, e.g., a stock or bond, means the holder of the position owns the security and will make a profit if the
