Insert the UV light and attach it with screws. Plug it in and test it. Summary Installing a UV light is beneficial for many reasons mainly to kill off mold, mildew, and airborne viruses.

How To Install UV Light in an HVAC System - HVAC How To
To install a new light fixture to be used with a pre-wired sensor, turn the power off to the circuit you are working on. Remove bulbs from the current fixture. With a screwdriver, remove the bolts that hold the light fixture to the box. While the fixture is dangling by wires, use the voltage tester to make sure the power is still turned off.
