resources flow from a "periphery" of poor and underdeveloped states to a "core" of wealthy states, enriching the latter at the expense of the former. It is a central contention of dependency theory that poor states are impoverished and rich ones enriched by the way poor states are integrated into the "world system".

The seminal work of John Rawls in 1971, A Theory of Justice, had helped make the application of ethics to economic and business issues more acceptable to academic philosophers than had previously been the case. Whereas most of those who wrote on social issues were professors of business, most of those who wrote initially on
